

Mooring Capstan

Simple and powerful mooring solutions

Hypac is a world leader in providing light weight vertical mooring capstans for a wide range of vessels. Our mooring capstans are rugged, easy to operate and easy to install.

The simplicity, reliability and quality that has become renowned with the Hypac design has made it a favourite of both ship builders and crews.

Hypac capstan designs take into account vessel requirements and come with a range of options including hydraulic or electric valves, insert rings or deck plates and with or without brake to suit your requirements.

Hypac

Hypac Mooring Capstan
